TECHNOLOGICAL STUDIES SAFETY GUIDELINES

1. The Kelsey School Division Technological Studies Safety Guidelines are designed to be a resource for principals, support staff, teachers of technological studies courses, and students. Administration and teachers in technological areas will be familiar with and in compliance with all aspects and responsibilities outlined in the Guidelines. These Guidelines will be developed in compliance with accepted Workplace Health and Safety Practices.
2. The Kelsey School Division Technological Studies Safety Guidelines will be reviewed and updated regularly by a committee consisting of the Superintendent and/or Director of Maintenance and Transportation, school administrators, and the appropriate technology teachers.
