

KELSEY SCHOOL DIVISION P.O. Box 4700 The Pas, Manitoba R9A 1R4

> Phone: (204) 623-6421 Fax: (204) 623-7704

To Whom it May Concern:

Covid-19 protocols require that the Kelsey School Division Board of Trustees modify the manner in which public consultations have occurred in previous years as the School Division prepares its budget for the 2022-23 school year. As a result, the following information is presented to assist interested parties to contribute to the upcoming year's budget development process.

- Instead of an in person public meeting to present an overview presentation of priorities and requests, the information will be available on a dedicated budget page on the KSD website Budget 2022-23.
- Documents identifying requests from the schools and school division for specific expenditures will be available
 online. This information will be considered further by the Board once public feedback had been received and
 before final decisions are made.
- A dedicated email ksdbudget@ksd.mb.ca found on the KSD budget page can be used to provide specific feedback to the Board.
- Responses can be submitted to the email above, faxed, or dropped off to the Division Office located at 322 Edwards Avenue weekdays between the hours of 8:30 AM and 4:30 PM. Please clearly label any communication as pertaining to **2022/23 Budget**. Response deadline is Wednesday February 23rd at 4:30 PM. (*Please note Division Office is closed on Monday February 21^{st-} for Louis Riel Day.)

The current year budget process has been complicated by changes by the Manitoba Government to both the funding model and funding amounts as well as changes within the Division. Kelsey School Division Administration and Board of Trustees values the participation and input from the public and would like to thank all those that provide responses or feedback.

Thank you

Graham Kahler

Secretary/ Treasurer

2022-23 Budget Initial Commentary

Administration anticipates challenging deliberations in the preparation of the 2022/23 budget for Kelsey School Division. Provided below are some of the key considerations going into next year's budget planning:

- The School Division's Operating Fund reported a 2021/22 opening deficit of (\$762K). As the current year is still underway the final closing figure for 2021/22 has yet to be determined. The 2021/22 FRAME budget anticipates a surplus of \$10,151. Any accumulated deficit at the end of the current year would be expected to be substantially recovered in the 2022/23 fiscal year. An operating deficit has a negative effect on financial stability, future year budgeting and limits the School Division's flexibility.
- The Province has announced a one-time grant for 2021/22 of \$666K to address current year financial pressures related to incremental staffing cost increases. These amounts will have a net effect when applied to staffing increases.
- COVID has required significant changes to typical operating procedures and has resulted in additional costs to the Division. It is still undetermined the anticipated effect ongoing requirements will have on future budgets.
- Division revenues highlights for 2022/23:
 - The Division is projecting a decrease in Provincial Base funding of (\$283K). The majority of this decline
 is tied to decreasing student enrollment at the Division in September 2021. This number is used by the
 Province in calculating current year funding. Year over year enrollment comparison is included in
 Appendix D.
 - The Province has announced a one-time grant of \$677k for 2022/23 to address cost pressures related to incremental increases to staffing costs.
 - o The Tax Incentive Grant (TIG) from the Province will be maintained at the prior year level. (\$155K)
 - The Province has provided instruction once again to freeze the special levy requirement for School Divisions at the 2020 level. An increase of 2% will be applied to the Property Tax Offset Grant (PTOG) provided by the province. (2022 - \$530K, 2023 - \$541K)
- Division expenditures highlights for 2022/23:
 - o Consumer Price Index reported an increase of 3.4% in 2021. https://www150.statcan.gc.ca/n1/daily-quotidien/220119/dq220119b-eng.htm. Increasing inflation has a negative effect on Division costs.
 - Known and unknown market and inflationary increases to costs of fixed operations including:
 - Fue
 - Electricity Manitoba Hydro (+3.8%)
 - Insurance (+20%)

- Water Town of the Pas
- School supplies
- Textbooks
- Maintenance supplies
- Replacement vehicles
- Increases for retroactive payments and projected costs for staffing in relation to current settlements and outstanding collective bargaining agreements. Staffing and related costs have historically represented the majority of the Division Budget expenditure (2022 Budget 86%). Incremental increases have a significant effect on Division financial flexibility.
- Staffing requests have been received for review and are shown in Appendix B
- Regular upkeep of Division Buildings and Assets requires ongoing financial contribution. Current year requests for capital are projected in **Appendix C**.
- Kelsey School Division Bus and Maintenance vehicle fleet has multiple vehicles approaching end of
 useful life. When this occurs, replacements are required not only to avoid costly rebuild or repair
 expenditures, but to maintain the safety of students and staff. (Appendix A)
 - Current year requests include replacement of:
 - 1 School Bus
 - 1 Maintenance vehicle

The current year continues to unfold and information regarding revenues and expenses continues to be received and considered in preparation of the 2022/23 budget. Input from the public is important in helping to weight decisions and priorities.
